

# THEATRICAL GUIDE and MOVING PICTURE DIRECTORY

Season 1921

# THE TWENTIETH EDITION OF THIS GUIDE

JULIUS CAHN published the first OFFICIAL theatrical Guide 25 years ago. Today we are offering our patrons the best and most complete edition ever published.

During the war time this book had not been published and now it comes out in consolidation with Gus Hill's National Directory in an entirely new dress. The Guide has been entirely revised. Since its last appearance the moving picture industry has become a powerful factor in theatricals and we are enabled to present no less than 20,006 theatres presenting moving pictures. In addition there are 3,673 theatres presenting traveling companies and vaudeville, making a total of 23,679 theatres. Undoubtedly since the work on this book has commenced, there have been quite a number of new moving picture theatres constructed and opened, information of which was not available at this time; all these corrections will appear in the next issue.

It is the only recognized book of reference of theatres as well as those who come in contact or do business with this class of patronage.

We bespeak from our friends an appreciation of the merits of the book and frank and friendly suggestions.

Very truly yours,

JULIUS CAHN-GUS HILL.

# CANADIAN CUSTOMS REGULATIONS

For the information of Theatrical Managers and Agents the following is submitted:

In making your railroad arrangements to enter Canada the initial line should give you with your itineraries several copies of manifest blanks, the same to be filled out by the manager in triplicate form and the local Railroad Representative at some point played in the United States several days prior to entry should forward copies of same to the port of entry that preparations may be made accordingly. There is no duty on scenery and theatrical effects taken to Canada and returned to the United States.

An export certificate should be obtained from the customs authorities at the port of entry before entering Canada, specifying:

Number of pieces baggage containing theatrical costumes
" drops
" pieces flat scenery
" pieces miscellaneous properties
} Estimated Value

Also specify number of pieces of personal baggage belonging to members of the company, it being not necessary to specify the value of personal property.

It is required that the export certificate be presented when the theatrical company re-enters the United States, whether through the same or other port of entry.

If the effects of the company are valued at $100 or more, it is additionally necessary for the manager of the company to secure from the United States Consul at the last place at which they appeared in Canada before re-entering the United States, a return goods certificate, which must accompany and be presented with the export certificate referred to above. If the effects are valued at less than $100, a consul's return goods certificate is not required.

Should train schedule provide for baggage to enter Canada on a different train than that used by the company, a representative of the company should accompany the baggage and obtain the export certificate, and upon re-entering the United States a representative of the theatrical company with the export certificate must accompany the baggage in order to pass customs, to obviate effects being detained at the border.

Passengers entering Canada from the United States and intending to return within a reasonable time, having in their possession **sealskin garments,** must obtain from the United States Deputy Collector at the frontier an export certificate showing a full description of the garment, to be retained to serve as authority with the customs officials at the original port of entry, or any other port, for the admission of the sealskin garment into the United States.

As the law governing the admission of sealskin from Canada to the United States is very stringent, attention of all members should be called to the above provisions, to avoid annoyance and delay in re-entering the United States.

**The above regulations do not in any way apply on movements through Canada from one point in the United States to another; in such cases all baggage is carried through in bond.**

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

# COPY OF CUSTOMS LAW TARIFF, PAR. 645

Act of July 24, 1897.

Regulations Art. 560 and 565.

Paragraph 645. Act of July 24, 1897: "Theatrical scenery, properties and apparel bought by proprietors or managers of theatrical exhibitions arriving from abroad for temporary use by them in such exhibitions, and not for sale, and which have been used by them abroad, shall be admitted free of duty under such regulations as the Secretary of Treasury may prescribe; but bonds shall be given for the payment to the United States of such duties as may be imposed by law upon any and all such articles as shall not be exported within six months after such importation. Provided, That the Secretary of the Treasury may, in his discretion, extend such period for a further term of six months in case application shall be made therefor."

Article 560, Treasury Regulations: "The following regulations will hereafter govern the importation of theatrical scenery, properties and apparel, under paragraph 645, Act of July 24, 1897:

"The invoice filed with the entry of the articles must describe them in such manner as to insure their identification at the time of export, and the values thereof must be duly set forth. Entries of such merchandise will be made under the general provisions of Article 565 of these regulations, with the necessary modifications to meet the case.

"The exportation shall be on regular withdrawal, and under Customs supervision.

"The bond account of such transactions shall be kept separate and distinct from the ordinary warehouse account. At the expiration of the bond it shall be sent to the district attorney for collection, unless the required proofs of exportation shall have been furnished by the importer or consignee."

Article 565: "Entries of articles admitted free on bond for temporary exhibition, including theatrical scenery, properties and apparel, will be made on the ordinary warehouse forms, modified to meet the special conditions of the case, and a ledger account will be kept of such bonds, showing the dates of expiration and cancellation of each bond."

**143 WEST 40th ST., NEW YORK**

Before doing anything else, place yourself in communication with Hickie, Borman, Grant & Co., 14 Waterloo Place, who are representing Perry Ryer & Co., our Custom House Brokers. After Hickie, Borman, Grant & Co. make up the invoice this should be placed upon the household effect form of invoice. Each case should be numbered by successive numbers or letters, and stated so in the inventory. For instance, basket number one contains, here state itemized list of contents, with the value of each article. Go on through in that manner until all the baskets are filled. On the lid of each basket, inside, should be placed a tag giving the contents of that basket without the value being attached.

Great care must be taken that no goods contained in these baskets are new, as an affidavit must be made, which states that the goods have been worn in Europe.

There is absolute necessity to have the prices stated in the inventory to be correct.

The scenery must be also itemized. Also the properties, giving the value of each piece, and each piece of scenery should be also labelled with serial numbers.

After this entire invoice is made up by Hickie, Borman, Grant & Co., the invoice should be sent to the office of the United States Consul and certified to by him, and he will attach a Consular certificate.

Three extra copies of the invoice should also be made, but it is not necessary to have them certified to by the Consul, as one will have to be filed at the Custom House, one is wanted at our office, and one for the Custom House broker's purposes, so as to keep track of these things.

I think the scenery and effects would be safer to be shipped on the Atlantic Transport, as there would be less wear and tear, and the goods arriving on the Atlantic Transport seem to arrive here in better condition than over any other line.

As it is understood, a bond has to be given for all these goods of double the value of what these goods are worth, and they will be exported again at the end of the year. If any are missing, exporting duty has to be paid, and for that reason a careful check is made upon them.

In the event of any of the principal people bringing over costumes themselves, all they have to do is to bring them in their own personal baggage and make a declaration when they arrive that it is their own wearing apparel on the stage, and there will be no duty on that. In that event it is not necessary to have these articles on the inventory.

To facilitate the shipments from European ports to American ports, I would suggest on shipments from any English port to arrange the shipments through Messrs. Hickie, Borman, Grant & Co., 14 Waterloo Place, London, England. These are the Custom House brokers who are thoroughly conversant with the necessities required, who can consign the goods to Messrs. Perry Ryer & Co., 66 Beaver Street, New York, and the shipper can rest assured that everything will be properly attended to.

# COPYRIGHT PROTECTION

The copyright law of the United States of America grants to an author or composer, providing the requirements of law are fully complied with, complete and absolute protection in his property rights in and to his writings.

Unauthorized productions of dramatic or musical compositions are punishable with sufficient severity to render unauthorized promulgation very rare.

The Congress of the United States are continually endeavoring to surround authors and composers with greater safeguards and protection. To that end, there was enacted by Congress a matter of great benefit and stimulus to foreign writers. Under the terms of this law, any author in a foreign country having international copyright agreements with the United States, who writes and publishes a book in any language except English, can obtain a year's option to copyright in this country by depositing one copy of his book with the Librarian of Congress within 30 days after publication, at the same time filing a statement that it is for the purpose of taking out a copyright within one year if he desires. In order to complete the transaction he must within 12 months deposit two copies, the title and usual fee; this protects him so far as the publication of his work in this country is concerned.

The practical benefit of this recent enactment lies in the fact that an author or composer will have an opportunity for this length of time of finding out whether or not he desires to publish in English and attempt to enter the American market. Most authors are in the dark as to how their works will be received, and it takes some time to find out whether there will be any financial advantage in obtaining the American copyright for an English translation.

This privilege applies only to authors resident in England, France, Germany, Spain, Belgium, Italy, Cuba, Brazil, Honduras, China, Chili, Denmark, and the Netherlands. The United States is not a member of the International Copyright League, but the enactment of this law on the part of Congress of this country is an important step toward encouraging foreign authors by making it easier for them to obtain the privileges of the American copyright.

It is too early yet to appreciate the extent to which this new privilege will be used, because the new law has not yet become sufficiently well known abroad.

It is highly desirable that each application for copyright entry shall be so made that the law is strictly complied with, so that no question can arise as to the validity of the entry recorded. Also that the application shall be in such form that the Copyright Office can, upon its receipt, promptly make the entries desired, and thus avoid delay through the necessity for correspondence.

To aid in accomplishing this, the Copyright office prepares an application form which should be used in all cases in accordance with the directions for filling it out, printed on page 4 of the blank. This form will be furnished upon request by the Register of Copyright, Washington, D. C.

The application must state the nature of the article for which the copyright is desired, i. e., whether it is a book, periodical, drama, musical composition, photograph or lithograph.

The classes of articles named in the copyright statutes as entitled to copyright are printed on page 4 of the application blank, and no article can be registered which cannot be classed under one or the other designation used in the law to indicate the articles subject to copyright protection. Indefinite designations, such as "publication," "reproduction," "picture," "work of art," etc., should not be used. The term "design" and "model" should only be used to designate a distinctly artistic production. If the words of a song only are desired to be protected, the application should be made out for a "book"; if protection is desired for both words and music, application should be made for a "musical composition." Do not apply for entry of a "comedy," a "drama," or a "farce," or use any similar differentiating term, but in all cases use the statutory designation "dramatic composition."

When application is made for a book, lithograph, or photograph, it is necessary to state where the article is printed or made, or whether it is printed or made, or to be printed or made, in the United States.

It is not necessary to state the name of the author if it is desired to keep the book or other article anonymous, but the nationality of the author is required in order to determine the fee to be charged, and whether the article, in the case of a foreign work, is the production of a citizen of some country to the subjects of which country the privilege of copyright in the United States has been extended.

In the case of an author who is a native of a foreign country, but a legal or permanent resident of the United States, that fact should be stated, or the citizenship should be given as of the United States.

An entry of copyright claim cannot be made unless the application for such entry contains a distinct statement in whose name the claim of copyright is to be registered.

The application must distinctly state the full real name and address of the person who claims to be the proprietor of the copyright. No entry can be made in a fictitious name; such as a nome de plume or pseudonym. Not only does the law require that the real name of the copyright claimant shall be printed in the notice of copyright which it is obligatory to print upon each copy of any article copyrighted, but it also requires that the name of the copyright claimant shall be printed in the catalogue of copyright entries. If an author desires to preserve his annonymity, he should arrange to have some other person make the copyright entry in such person's name as "proprietor," under an agreement with himself as author. Entry can be made in the name of a firm, corporation, or trustee, or in two or more names as joint authors or proprietors.

The blank should be filled up to state whether the copyright is claimed as author or as proprietor of the work whose title is recorded.

The first step to be taken in order to secure copyright protection, is the transmission of a printed copy of the title of the book or other article.

The copying of such title page into the record books of the Copyright Office becomes the recording of the claim of copyright. The requirements of the statute are definite, and it is incumbent that they shall be exactly complied with. If, therefore, no title is sent, no entry can be made.

## COPYRIGHT PROTECTION—Continued

Formal application for copyright should be made by filling up the application blank in accordance with the directions printed on page 4, and mailing it with the required fee addressed: The Librarian of Congress, Copyright Office, Library of Congress, Washington, D. C. The application should always be accompanied by a title page. The copyright law distinctly requires the filing of a "printed" title, and if a typewritten title is sent it is accepted at the risk of the sender. Written titles can not be accepted. Sending two copies of a book or other article is not a compliance with the requirement of the law that a title and two copies are to be sent, but three copies will serve, if such copies bear the printed title.

In the case of music, preferably the printed title cover of the music should be sent when this contains a complete title, with names of author of the words, and composer of the music.

Great care should be taken to send the required title or description for record before the publication or distribution of any copies of the article which it is desired to copyright. The law states explicitly that "No person shall be entitled to a copyright unless he shall, on or before the day of publication, in this or any foreign country, deliver at the office of the Librarian of Congress, or deposit in the mail within the United States addressed to the Librarian of Congress, at Washington, District of Columbia, a printed copy of the title of the book, dramatic or musical composition, print, photograph, for which he desires a copyright.

In the case of works published in parts or volumes, the title of each part or volume should be recorded as if an independent work.

The author of any literary, musical, dramatic, or artistic work, who is a citizen of the United States or a subject of any country to whose citizens the United States has extended the benefits of copyright, is privileged to obtain copyright in the United States.

Any person to whom an author who has the privilege of copyright in the United States, has transferred his copyright, can apply for and obtain copyright entry as a "proprietor." A translator, and the editor, compiler, dramatizer, or abridger of a work may, under the copyright law, be considered as the author of the translation, the compilation, the dramatization or the abridgment, and can apply for and obtain copyright registration.

The mere possession of a book, either in manuscript or printed form, does not of itself give the possessor the privilege of copyright registration.

The second step required to be taken to complete a copyright is the deposit of two copies of the article for which the title has been recorded. This should be made before the publication or distribution of any copies of the article.

Unless this deposit is made, a penalty of $25 is also incurred. When sending the copies, see that they are plainly marked with the distinguishing title of the article and the name and address of the sender. It is impossible to keep track of articles not bearing titles or other distinguishing marks in an office receiving more than two thousand articles each week. In any letter referring to an article sent for deposit, name or describe the article fully and exactly.

Manuscripts cannot be accepted as deposits to complete copyright, and should not be sent to the Copyright Office.

By special provision of Congress, all articles deposited in the Library of Congress, Copyright Office, to complete entries of copyright, are catalogued and the titles published in the weekly publication entitled "Catalogue of title entries of books and other articles entered in the office of the Register of Copyright, Library of Congress, at Washington, D. C., under the copyright law, wherein the copyright has been completed by the deposit of two copies." In this publication are given: "The title of the article deposited; the name of the claimant of copyright; the date and entry number of the record of claim of copyright; the number and date of the deposit of the copies sent to complete the copyright."

This printed publication, therefore, is equivalent to a published receipt for copies deposited to complete copyright, and is the only form of receipt which the office is authorized by law to give; except that a certified receipt can be given upon payment of the legal fee of 50 cents and one uncanceled 10-cent internal revenue stamp.

If for special reasons, however, receipts for the deposit of copies are required, they can be given, provided a blank receipt form is properly filled out by the sender of the article, ready for dating and signing; and provided it is sent with the two copies of the article required by law to be delivered.

These blank receipt forms will be supplied on request, and they should be so fully and carefully filled out that no question of identity can arise; otherwise no receipt can be furnished.

The copyright fees prescribed by law are as follows: For recording each title of a book, or other article, the production of a citizen or resident of the United States, the charge is fifty (50) cents. If a certificate of copyright (i. e., a certificate of the entry of the title) is desired, there is an additional charge of fifty (50) cents, or $1 in all. When a certificate is ordered, there should also be sent one uncanceled 10-cent internal revenue stamp, to be canceled and attached thereto in the Copyright Office.

For recording each title of a book, or other work, the production of a person not a citizen or resident of the United States, the charge is $1. This fee of $1 is required to be paid for recording the title of every work whose original author or producer is "a person not a citizen or resident of the United States," whether the proprietor of the copyright is or is not a citizen or resident of the United States. A certificate of such record requires the payment of fifty (50) cents additional, or $1.50 in all. In this case, also, if a certificate is desired, one uncanceled 10-cent internal revenue stamp should be forwarded with the application.

For every copy under seal of the record of entry of any title, the charge is fifty (50) cents, and one uncanceled 10-cent internal revenue stamp.

For a certified receipt for the deposit of the two copies required by law, the charge is fifty (50) cents, and one uncanceled 10-cent internal revenue stamp.

For recording and certifying any instrument of writing for the assignment of a copyright, of ordinary length, the charge is $1; and for each copy of an assignment, $1; with, in each case, one uncanceled 10-cent internal revenue stamp.

Each and every certificate issued by the Copyright Office now requires to have attached

## COPYRIGHT PROTECTION—Continued

to it a 10-cent internal revenue stamp. This stamp should, in all cases, be sent uncanceled, and should be pinned, not stuck, to the application or letter.

It is optional with the copyright applicant to pay the fee for a certificate at the time of entry of title.

A certificte of copyright is convenient prima facie evidence of copyright entry; but this document can be had in the form of a certified copy of record at any time subsequent to the registration of title.

Do not send any revenue stamps unless certificates are desired; and in no case should any postage stamps or stamped envelopes be sent for reply, as all Copyright Office mail is forwarded under a Government frank.

All remittances should be by money order or express order, payable to the Register of Copyrights.

No money (currency) should be placed in any package of books, music, or other matter sent to the Copyright Office, and all remitters are respectfully urged to take care to send an identifiable remittance. Postage stamps should not be sent as fees.

The act of March 3, 1891, provides, that "Authors or their assigns shall have exclusive right to dramatize and translate any of their works for which copyright shall have been obtained under the laws of the United States."

Translations authorized by the authors or proprietors of copyrighted works, and translations of non-copyrighted books are subject to registration in the Copyright Office as original productions, and application for copyright registration should be made as for an original work.

Dramatic compositions should be applied for upon printed or typewritten titles, as in the case of other literary compositions. It has been the practice of the Copyright Office to receive and credit, at the responsibility of the claimant, two typewritten copies of a drama, but by a recent decision of the courts it is held that such deposit of typewritten copies is not a compliance with the copyright law. Under these circumstances the safer course to pursue is to file printed copies.

**Here follow the Revised Statutes of the United States of America, concerning musical and dramatic compositions, as to obtaining the copyright and the rights which accrue under such copyrights:**

SEC. 4952. The author, inventor, designor, or proprietor of any book, map, chart, dramatric or musical composition, engraving, cut, print, or photograph, or negative thereof, or of a painting, drawing, chromo, statue, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person shall, upon complying with the provisions of this chapter, have the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing, and vending the same; AND IN THE CASE OF A DRAMATIC COMPOSITION, OF PUBLICLY PERFORMING OR REPRESENTING IT, OR CAUSING IT TO BE PERFORMED OR REPRESENTED BY OTHERS; AND AUTHORS OR THEIR ASSIGNS SHALL HAVE EXCLUSIVE RIGHT TO DRAMATIZE AND TRANSLATE ANY OF THEIR WORKS FOR WHICH COPYRIGHT SHALL HAVE BEEN OBTAINED UNDER THE LAWS OF THE UNITED STATES.

SEC. 4953. Copyrights shall be granted for the term of twenty-eight years from the time of recording the title thereof, in the manner hereinafter directed.

SEC. 4954. The author, inventor, or designer, if he be still living, or his widow or children, if he be dead, shall have the same exclusive right continued for the further term of fourteen years, upon recording the title of the work or description of the article so secured a second time, and complying with all other regulations in regard to original copyrights, within six months before the expiration of the first term; and such person shall, within two months from the date of said renewal, cause a copy of the record thereof to be published in one or more newspapers printed in the United States for the space of four weeks.

SEC. 4955. Copyrights shall be assignable in law, by an instrument of writing, and such assignment shall be recorded in the office of the Librarian of Congress within sixty days after its execution; IN DEFAULT OF WHICH IT SHALL BE VOID AS AGAINST ANY SUBSEQUENT PURCHASER OR MORTGAGEE FOR A VALUABLE CONSIDERATION, WITHOUT NOTICE.

SEC. 4956. No person shall be entitled to a copyright unless he shall, on or before the day of publication IN THIS OR ANY FOREIGN COUNTRY, deliver at the office of any Librarian of Congress, or deposit in the mail within the United States, addressed to the Librarian of Congress, at Washington, District of Columbia, A PRINTED COPY of the title of the BOOK, map, chart, DRAMATIC OR MUSICAL COMPOSITION, engraving, cut, print, photograph, or chromo, or a description of the painting, drawing, statue, statuary, or a model or design for a work of the fine arts, for which he desires a copyright, nor unless he shall also, NOT LATER THAN THE DAY OF THE PUBLICATION THEREOF IN THIS OR ANY FOREIGN COUNTRY, deliver at the office of the Librarian of Congress, at Washington, District of Columbia, two copies of such copyright book, map, chart, DRAMATIC OR MUSICAL COMPOSITION, engraving, chromo, cut, print, or photograph, or in case of a painting, drawing, statue, statuary, model, or design for a work of the fine arts, a photograph of the same: PROVIDED, That in the case of a book, photograph, chromo, or lithograph, THE TWO COPIES OF THE SAME REQUIRED TO BE DELIVERED OR DEPOSITED AS ABOVE SHALL BE PRINTED FROM TYPE SET WITHIN THE LIMITS OF THE UNITED STATES, or from plates made therefrom, or from negatives or drawings on stone made within the limits of the United States, or from transfers made therefrom. During the existence of such copyright the importation into the United States of any book, chromo, lithograph, or photograph so copyrighted, or any edition or editions thereof, or any plates of the same not made from type set, negatives, or drawings on stone made within the limits of the United States, shall be, and it is hereby prohibited, except in the cases specified in paragraphs five hundred and twelve to five hundred and sixteen, inclusive, in section two of the act entitled "An act to reduce the revenue and equalize the duties on imports, and for other purposes," approved October first, eighteen hundred and ninety; and except in the case of persons purchasing for use and not for sale, who import subject to the duty thereon, not more than two copies of such book at any one

## COPYRIGHT PROTECTION—Continued

time; and except in the case of newspapers and magazines, not containing in whole or in part matter copyrighted under the provisions of this act, unauthorized by the author, which are hereby exempted from prohibition of importation; PROVIDED, NEVERTHELESS, That in the case of books in foreign languages, of which only translations in English are copyrighted the prohibition of importation shall apply only to the translation of the same, and the importation of the books in the original language shall be permitted.

SEC. 4957. The Librarian of Congress shall record the name of such copyright, book or other article, forthwith, in a book to be kept for that purpose, in the words following: "Library of Congress, to wit: Be it remembered that on the.....day of.... ..A. B., of .....hath deposited in this office the title of a book, (map, chart, or otherwise, as the case may be, or description of the article), the title or description of which is in the following words, to wit: (here insert the title or description), the right whereof he claims as author, (originator or proprietor, as the case may be), in conformity with the Laws of the United States respecting copyrights. C. D., Librarian of Congress." And he shall give a copy of the title or description, under the seal of the Librarian of Congress, to the proprietor whenever he shall require it.

SEC. 4958. The Libarian of Congress shall receive from the persons to whom the services designated are rendered the following fees:

First—For recording the title or description of any copyright book or other article, fifty cents.

Second—For every copy under seal of such record actually given to the person claiming the copyright, or his assigns, fifty cents.

Third—For recording and certifying any instrument of writing for the assignment of a copyright, one dollar.

Fourth—For every copy of an assignment, one dollar.

All fees so received shall be paid into the Treasury of the United States: PROVIDED, That the charge for recording the title or description of any article entered for copyright, the PRODUCTION OF A PERSON NOT A CITIZEN OR RESIDENT OF THE UNITED STATES, shall be one dollar, to be paid as above into the Treasury of the United States, to defray the expenses of lists of copyrighted articles as hereinafter provided for.

SEC. 4959. The proprietor of every copyright book or other article shall deliver at the office of the Librarian of Congress, or deposit in the mail addressed to the Librarian of Congress, at Washingfon, District of Columbia, a copy of every subsequent edition wherein any substantial changes shall be made: PROVIDED, HOWEVER, That the alterations, revisions, and additions made to books by foreign authors, heretofore published, of which new editions shall appear subsequently to the taking effect of this act, shall be held and deemed capable of being copyrighted as above provided for in this act, unless they form a part of the series in course of publication at the time this act shall take effect.

SEC. 4960. For every failure on the part of the proprietor of any copyright to deliver or deposit in the mail either of the published copies, or description or photograph, required by sections four thousand nine hundred and fifty-six, and four thousand nine hundred and fifty-nine, the proprietor of the copyright shall be liable to a penalty of twenty-five dollars, to be recovered by the Librarian of Congress, in the name of the United States, in an action in the nature of an action of debt, in any district court of the United States within the jurisdiction of which the delinquent may reside or be found.

SEC. 4961. The postmaster to whom such copyright book, title, or other article is delivered, shall, if requested, give a receipt therefore, and when so delivered, he shall mail it to its destination.

SEC. 4962. No person shall maintain an action for the infringement of his copyright UNLESS HE SHALL GIVE NOTICE THEREOF BY INSERTING IN THE SEVERAL COPIES OF EVERY EDITION PUBLISHED, on the title-page or the page immediately following, if it be a book; or if a map, chart, MUSICAL COMPOSITION, print, cut engraving, photograph, painting, drawing, chromo, statue, statuary, or model or design intended to be perfected as a work of the fine arts, by inscribing upon some portion of the face or front thereof, or on the face of the substance on which the same shall be mounted, the following words, "Entered according to act of Congress, in the year , by A. B., in the office of the Librarian of Congress, at Washington."

SEC. 4963. Every person who shall insert or impress such notice, or words of the same import, in or upon the book, map, chart, dramatic or musical composition, print, cut, engraving or photograph, or other article, whether such article be subject to copyright or otherwise, for which he has not obtained a copyright, or shall knowingly issue or sell any article bearing a notice of United States copyright which has not been copyrighted in this country; or shall import any book, photograph, chromo, or lithograph or other article bearing such notice of copyright or words of the same purport, which is not copyrighted in this country, shall be liable to a penalty of one hundred dollars, recoverable one-half for the person who shall sue for such penalty and one-half to the use of the United States; and the importation into the United States of any book, chromo, lithograph, or photograph, or other article bearing such notice of copyright, when there is no existing copyright thereon in the United States, is prohibited; and the circuit courts of the United States sitting in equity are hereby authorized to enjoin the issuing, publishing, or selling of any article marked or imported in violation of the United States copyright laws, at the suit of any person complaining of such violation: PROVIDED, That this act shall not apply to any importation of or sale of such goods or articles brought into the United States prior to the passage thereof.

SEC. 4964. Every person, who after the recording of the title of any book and the depositing of two copies of such book, as provided by this act, shall, contrary to the provisions of this act, within the term limited, and without the consent of the proprietor of the copyright first obtained in writing, signed in the presence of two or more witnesses, print, publish, dramatize, translate, or import, or knowing the same to be so printed, published, dramatized, translated, or imported, shall sell or expose for sale any copy of such book, shall forfeit every copy thereof to such proprietor, and shall also forfeit and pay such damages as may be recovered in a civil action

## COPYRIGHT PROTECTION—Continued

by such proprietor in any court of competent jurisdiction.

SEC. 4965. If any person, after the recording of the title of any map, chart, DRAMATIC or MUSICAL COMPOSITION, print, cut, engraving, or photograph, or chromo, or of the description of any painting, drawing, statue, statuary, or model or design intended to be perfected and executed as a work of the fine arts, as provided by this act, shall, within the term limited, contrary to the provisions of this act, AND WITHOUT THE CONSENT OF THE PROPRIETOR OF THE COPYRIGHT FIRST OBTAINED IN WRITING, SIGNED IN THE PRESENCE OF TWO OR MORE WITNESSES, engrave, etch, work, copy, print, PUBLISH, DRAMATIZE, TRANSLATE, OR IMPORT, EITHER IN WHOLE OR IN PART, or by varying the main design, with intent to evade the law, or, knowing the same to be so published, dramatized, translated or imported, shall sell or expose to sale any copy of such map or other article, as aforesaid, HE SHALL FORFEIT TO THE PROPRIETOR ALL THE PLATES OF WHICH THE SAME SHALL BE COPIED, AND EVERY SHEET THEREOF, EITHER COPIED OR PRINTED, AND SHALL FURTHER FORFEIT ONE DOLLAR FOR EVERY SHEET OF THE SAME FOUND IN HIS POSSESSION, either printing, printed copied, published, imported, or exposed to sale; and in case of painting, statue, or statuary, he shall forfeit ten dollars for every copy of the same in his possession, or by him sold or exposed for sale; PROVIDED, HOWEVER, That in case of any such infringement of the copyright of a photograph made from any object not a work of the fine arts, the sum to be recovered in any action brought under the provisions of this section shall be not less than one hundred dollars, nor more than five thousand dollars, and; PROVIDED, FURTHER, That in case of any such infringement of the copyright of a painting, drawing, statue, engraving, etching, print, or model or design for a work of the fine arts or of a photograph of a work of the fine arts, the sum to be recovered in any action brought through the provisions of this section shall be not less than two hundred and fifty dollars, and not more than ten thousand dollars. One-half of all the foregoing penalties shall go to the proprietors of the copyright and the other half to the use of the United States.

SEC. 4966. Any person publicly performing or representing any DRAMATICAL or MUSICAL COMPOSITION for which a copyright has been obtained, without the consent of the proprietor of said dramatic or musical composition, or his heirs or assigns, shall be liable for damages therefor, such damages in all cases to be assessed at such sum, NOT LESS THAN ONE HUNDRED DOLLARS FOR THE FIRST AND FIFTY DOLLARS FOR EVERY SUBSEQUENT PERFORMANCE, as to the court shall appear to be just. If the unlawful performance and representation BE WILLFUL AND FOR PROFIT, such person or persons SHALL BE GUILTY OF A MISDEMEANOR, AND UPON CONVICTION BE IMPRISONED FOR A PERIOD NOT EXCEEDING ONE YEAR. Any injunction that may be granted upon hearing after notice to the defendant by any circuit court of the United States, or by a judge thereof, RESTRAINING AND ENJOINING THE PERFORMANCE OR REPRESENTATION OF ANY SUCH DRAMATIC OR MUSICAL COMPOSITION MAY BE SERVED ON THE PARTIES AGAINST WHOM SUCH INJUNCTION MAY BE GRANTED ANYWHERE IN THE UNITED STATES, and shall be operative and may be enforced by PROCEEDINGS TO PUNISH FOR CONTEMPT OR OTHERWISE by any other circuit court or judge of the United States; but the defendants in said action, or any or either of them, may make a motion in any other circuit in which he or they may be engaged in performing or representing said dramatic or musical composition to dissolve or set aside the said injunction upon such reasonable notice to the plaintiff as the circuit court or the judge before whom said motion shall be made shall deem proper; SERVICE OF SAID MOTION TO BE MADE ON THE PLAINTIFF IN PERSON OR ON HIS ATTORNEYS IN THE ACTION. The circuit courts or judges thereof shall have jurisdiction to enforce said injunction and to hear and determine a motion to dissolve the same, as herein provided, as fully as if the action were pending or brought in the circuit in which said motion is made.

SEC. 4967. Every person who shall print or publish any manuscript whatever without the consent of the author or proprietor first obtained, shall be liable to the author or the proprietor for all damages occasioned by such injury.

SEC. 4968. No action shall be maintained in any case of forfeiture or penalty under the copyright laws, unless the same is commenced within two years after the cause of action has arisen.

The Revised Statutes also provide that for the purpose of the copyright act each volume of a book published in two or more volumes, when such volumes are published separately, and the first shall have been issued before the first day of July, 1901, and such number of the periodical shall be considered an independent publication, subject to the form of copyrighting required by statute.

# Concerning Plays for Stock Managers

Stock Managers are just like any other purchasers in the open market—they will go where they can get the best for their money and be treated as if they were always welcome—big fellows and little fellows alike.

This week they may, for some special purpose, require a play first produced twenty years ago, and next week it may be a piece right off Broadway that fits their needs. They always know just what they want and not something "just as good." They also want prompt and courteous treatment, clean manuscripts and parts—and they want the material ON TIME.

It is a strict observance of the above requirements (as far as physically possible) that has placed us in the foreground as purveyors of plays for stock purposes. We control SEVENTY-FIVE per cent of all the new plays released for STOCK, and we stand ready to deliver ONE HUNDRED per cent SERVICE.

We also represent authors in reading and securing production for their plays or presentation of material on the screen. We likewise have a special department devoted to material for amateur use.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

**At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.**

**We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.**

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

**At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.**

**We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.**

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

# *Why the Great* METRO *Productions Are Like No Other Pictures in the World*

Pictures speak a universal language. In every country there is a demand for METRO Pictures. Popular delight in these marvelous creations, both here and abroad, is growing by leaps and bounds. *Why?*

## The Story's the Thing!

That is the big idea underlying the work of the most complete entertainment organization ever brought together.

Stories are not built around Stars—but Stars (as in the days when the American drama developed its most delightful art) are secured to suit the stories.

These men and women of genius and charm are directed by the wisest minds in the Art of the photo-drama. Back of this is every device that the Science of Motion Photography has perfected. There is, besides, *Soul* in the work—the Master Dominance of the Ideal—that nothing more artistic, more beautiful, more enchanting, more thorough shall ever be produced than is achieved by METRO.

See a METRO Picture and learn that what was Commerce has by this organization been lifted to the eminence of Art.

TO MOTION PICTURE PRODUCERS:

Tom Bret's office is at Room 611, Candler Building, where the services of an expert sub-title and scenario writer can be had almost any time by calling

**Phone Number—BRYANT 7691**

Tom Bret formerly was sub-title editor of the Greater Vitagraph and scenario editor at the Rolfe-Metro Studios, and is one of the few men completely well informed on the technicalities of assembling motion pictures and writing impressive sub-titles.

The "Dramatic Mirror" has called Bret, "the most successful film editor in the world," and the celebrated "Zit" of the New York Evening Journal, has pronounced him a "master of art-captioning." All the other trade papers and New York newspapers have spoken in highest praise of his writings.

Mr. Bret was the first scenario writer to receive a curtain call on Broadway and has written many splendid photoplays.

# REDUCE YOUR BUST, ABDOMEN, HIPS, CHIN

## or other Fat with one jar of Cosi Obesity Cream

External, harmless, quick. For men and women. No dieting. No drugging. No exercising. No massaging. Spend 15 minutes daily in your own home and surprise your tailor at your next fitting. $7.00 pound jar (6 weeks' treatment) sent postpaid. Sample 10c. Made and sold only by DR. G. E. CURRIE, 2803 Avenue G, Brooklyn, N. Y. Telephone Mansfield 3489.

One lady reduced her bust 3 inches with one jar. Another lady reduced her hips 3½ inches with one jar. A business man reduced his waist 4 inches with one jar. A theatrical star reduced her bust, hips, thighs and chin with three jars and was greatly pleased. A society woman reduced her ankles with Dr. Currie's Cosi Obesity Cream and recommended it to many others in her set.

# Confidential

We want every man who is interested in the sale of pasteboards through the box-office window to make more money during 1921 than he ever did before.

And we want him to have a degree of organization in his business that will be an underwriting for his success in the years that are to come.

If you have no satisfactory system of accounting; if you are operating on a hit-and-miss basis, there is a quick, easy and inexpensive remedy.

Experts in the employ of Exhibitors Trade Review have developed a loose-leaf accounting system—designed especially for motion picture exhibitors.

It is contained within a single loose-leaf binder, with a sufficient number of form sheets to carry for more than a year.

And listen! Mr. Exhibitor: You positively will be able to receive and start this system even without consulting a bookkeeper because the instructions are simple and so easily understood. Don't delay your order a single day,

**The price of the system, complete, is only $7.50.**

It will prove the finest and best investment you ever made. Send for one immediately. Address:

## The Greatest Organization of Poster Artists and Poster Printers in the World

RITCHEY posters stand forth plainly and boldly. They are powerful poster conceptions, finely conceived and attractively executed, and they carry conviction always. They dominate through the sheer force and sincerity that are their essential characteristics. They carry an absolute conviction, for they never arouse an antagonistic mood in the person who beholds them.

Every poster that bears the RITCHEY trade mark is the finished product of the greatest organization of poster artists and poster printers in the world.

There are several reasons and each of them worth analysis and consideration on the part of anyone who would understand and really know how and why

# The Billboard

***America's Big Weekly Theatrical Digest and Record of the Show World***

has outstripped and distanced all of the other amusement papers and secured its dominant position.

The first of these is because it has from its very first issue, twenty-seven years ago, striven to represent the profession with credit—never playing up its scandals, divorces and ugly sensations—always featuring its worthy aims and achievements.

The second is because it has steadily striven for accuracy and facts, presenting the news as news, and never shaping or twisting it to any purpose whatever.

The third is because it has always given the most for the money. Even today, with paper at unheard of price, it issues 100, 108, 116 and 132 pages for 15 cents.

Thus has it won the esteem, confidence and appreciation of the profession and attained a circulation (at this writing) of over 56,000 copies—a circulation greater than all other papers in its field, and 40,000 greater than that of the largest of the small-fry.

It carries all the wise advertising simply because of its enormous circulation, which enables it to sell advertising of the very highest quality at a price that none of its competitors can touch; its rate per line per 1,000 copies being less than seven-tenths of a cent commercial, and less than six-tenths of a cent professional rate. Papers of small circulation are compelled to exact double and triple their price and consequently have to subsist entirely on business obtained from the inexperienced, uninformed and unwary experimenters, and it is only a matter of time when these latter, if they graduate and become regular advertisers, find their way into the columns of THE BILLBOARD.

**Miniature Photographic Programmes are a Diamond in Effect and Paper in Price**

Miniature Photographic Programmes are the most attractive and positively the most valuable advertisement you have ever used.

According to testimonials received, it has been the means of increasing the attendance from 15 to 25 per cent.

The best results have been obtained by featuring with a miniature photograph the leading star and on the reverse side the entire programme for the following week, which is handed to your patrons as they leave the theatre. The Photograph makes the card attractive, the size makes it practical and the programme makes it a valuable advertisement, which is proven by the fact that men and women take the card and keep it.

It has been found that miniature photographs produce extraordinary returns. It brings your patrons back and because of its novelty your patrons will show it to their friends, and in this way the highest advertising efficiency is attained.

If you want to improve your business a trial order will convince you of the merit of this clever and inexpensive advertisement.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

So that we may have this Guide as accurate and complete as possible, we request the kind assistance of every individual interested. All information contained in this book has been received from reliable sources, but owing to the continual changes in the theatrical as well as the moving picture industry, it is not possible to have this book absolutely correct. Any suggestions as to changes will be gladly received by the publishers.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

So that we may have this Guide as accurate and complete as possible, we request the kind assistance of every individual interested. All information contained in this book has been received from reliable sources, but owing to the continual changes in the theatrical as well as the moving picture industry, it is not possible to have this book absolutely correct. Any suggestions as to changes will be gladly received by the publishers.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

So that we may have this Guide as accurate and complete as possible, we request the kind assistance of every individual interested. All information contained in this book has been received from reliable sources, but owing to the continual changes in the theatrical as well as the moving picture industry, it is not possible to have this book absolutely correct. Any suggestions as to changes will be gladly received by the publishers.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

At considerable expense, and sparing no effort on our part, we have endeavored to obtain information from every theatre in the United States and Canada playing traveling attractions. However, in some instances we have not met with the desired results. Many managers have failed to comply with our request, thinking, as we have learned in many instances, that the particulars of their theatres would be taken from the former issue of the Guide. They apparently failed to realize that there are forty-six hundred theatres of this type in the United States and Canada, and as the Guide has been entirely reconstructed this year, it is impossible to remember everything appertaining to these houses.

We, therefore, kindly request all managers, whose information is not correctly quoted in this book, to communicate with this office. It is our aim to have the Guide flawless, and this can be accomplished with the kind assistance of the local managers.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

It is the desire of the publishers to have the information contained in this book as complete as possible. Every effort has been put forth to accomplish this result. Information has been sought from every source obtainable—even from the Mayors of each of the cities, and we feel we have accomplished a great deal toward that end. However, owing to the continual changes in the theatrical industry, it is impossible to be as precise as we aim to be. Any corrections that anyone can suggest will be cheerfully accepted by the publishers. Office, Longacre Bldg., New York City.

**EDITORS CLIP**

*the*

**Dramatic Mirror**

**More Than Any Other Theatrical Publication in This Country**

FOR FORTY-ONE YEARS—because of its unquestioned high standing and authority—editors have been in the habit of referring to and using The Mirror in making up their dramatic and motion picture pages.

THE MIRROR has always encouraged this, and in every way possible made it easy for editors to get just what they want from its columns.

THIS CONSTANT turning to The Mirror for reference makes its pages hold a great big value for you.

YOUR ANNOUNCEMENTS, from the very fact that they appear in The Mirror, immediately take on an added standing and authority.

AND WHAT IS MORE, your publicity does not stop working for you with its appearance in The Mirror, but keeps going on and on—through clipping and quotation—until it has reached into innumerable cities, towns and villages throughout the whole country.

# MEN OF THE WORLD

There's Weitzel for Reviews, a showman who writes for showmen—who is unbiased, unbought and unbuyable, who gives you facts rather than weak humor. He's one man of the World.

There's Sargent—the acknowledged leader of the exploitation field—he gives you useful, practical things that help sell your pictures to the public. He's another man of the World.

Then there's Richardson—the projectionist who knows his subject better than any other man in the game—he's another man of the World.

These are only three of the practical men conducting practical service departments that are devoted exclusively to exhibitor readers of
